AMA CONSTRUCTION BEGINS CONSTRUCTION AT OLETA CRAIN ENRICHMENT ACADEMY

New facility will help provide learning tools for Denver's youth

Denver, Colo. – AMA Construction, a Lakewood-based general contractor, recently began construction at the Oleta Crain Enrichment Academy (OCEA) Community Center located near downtown Denver. The \$424,000 remodel and addition will provide OCEA with a state-of-the-art learning environment that offers local youths the tools to engage in community-based activities and build a strong foundation for achieving personal success.

AMA will be responsible for the renovation of a 4,000 square foot existing brick building as well as the addition of a new 1,780 square foot building. The project, which is scheduled for completion in August, will also include a new parking lot, sidewalks, entry stairs and accessible ramp for the community center located at 21st Avenue and Marion Street – all to be completed by AMA.

Named 2010 Small Business of the Year by the Denver Metro Chamber of Commerce, AMA Construction, Inc. is a mid-sized commercial general contractor determined to redefine the role of the contractor in the building process. Specializing in construction of office buildings, retail centers, medical buildings, tenant finish, commercial remodeling and site development, AMA Construction is licensed in most Colorado Front Range communities, as well as Arizona and California. Uniting the objectives of owner and architect, AMA brings a higher standard in leadership, customer service and ingenuity to the industry.
